

Omnium Lite Earns 2 Prestigious Test Management Software Distinctions from Platform for Software Reviews

[Omnium Lite](#) was recently analyzed by a team of B2B experts, and they inspected all aspects of our test environment management platform -- from automated capturing of usage data to determining scheduling patterns. In a nutshell, we received a positive score alongside a few notable positive remarks. The icing on the cake is the two distinctions that we received: 2018 **Great User Experience** and 2018 Rising Star award.

FinancesOnline reserves its **Great User Experience award for [best test management software](#)** to solutions that provide a pleasing user experience through great usability and intuitive interface and functionalities. Their experts mentioned our platform's ease of use in the review, stating that Omnium lite "eliminates confusion and guesswork" by delivering a single source of truth on all build versions, regardless of environment. This results in better productivity and ensures all your testing teams are on the same page, FinancesOnline stated.

The Omnium Lite team is also honored to receive FinancesOnline's **Rising Star** award. Noting an increase in popularity alongside plenty of happy clients assures that Omnium Lite has delivered in its value proposition.

Other benefits of Omnium Lite, according to FinancesOnline, include accelerated project deliveries, less time lost on performing arduous tasks, and better work quality, to name a few.

Make sure to check out FinancesOnline's analysis and leave a user review to share how Omnium Lite helped you better manage your test environment.
